PREFACE

Indonesian Aquaculture Journal (IAJ) in 2016 entered the Volume 11. The process of publishing this journal is funded by Center for Fisheries Research and Development of the fiscal year 2016. All submissions should be published through the process of evaluation by the Editorial Board, Peer-Reviewers, and editing by Editorial Office.

Management of Indonesian Aquaculture Journal (IAJ) in 2016 began referring to the Open Journal Systems (OJS). In terms of appearance there was a little change, namely:

- 1. Inclusion of p-ISSN and e-ISSN in the upper right corner on the face skin page, title page and table of contents page of issue, without colons
- 2. Special Sheets for Peer-Reviewers
- 3. Sheet gratitude for Peer-Reviewers involved in the review of each number
- 4. Each title sheet no additional information on the website, email address and information about the IAJ. This change information is displayed on each foreword for 2 (two) publications.

Second published in Volume 11 Number 2, 2016 presented six fisheries research articles. Those six articles are: Morphological characteristics of a red strain of the Egyptian African catfish (*Clarias gariepinus* Burchell 1822); Abundance and utilization of natural life feed for rearing of Asian catfish (*Pangasianodon hypophthalmus*) larvae in outdoor pond; The effect of phytoecdysteroid of *Cycas revolua, Portulaca oleracea,* and *Morus* sp. on molting period, growth and survival rate of tiger shrimp, *Penaeus monodon*; Effects of different salinity levels on physiological and hematological response of rock bream *Oplegnathus fasciatus;* Molecular detection and cloning for rickettsia-like bacteria of milky haemolymph disease of spiny lobster *Panulirus* spp.; Addition of adjuvants in recombinant subunit vaccines for the prevention of grouper sleepy disease iridovirus (GSDIV) infection in humpback grouper, *Cromileptes altivelis*

Those scientific papers are expected to contribute to policy makers and managers of fisheries resources in Indonesia. Editor would deliver sincere thanks to researchers from the Center for Fisheries Research and Development and outside for their active participation in this edition.
