PREFACE

Indonesian Fisheries Research Journal Volume 17 Number 1 June 2011 is the first publication of English journal of the Research Center for Fisheries Management and Conservation in 2011. The journal is expected to be a source of newest science and technology for all scientists and researchers in Indonesia and other countries. The financial for publication is provided by the Research Center for Fisheries Management and Conservation budget in the Fiscal Year of 2011.

This volume contains the bio-economic optimal levels of the Bali Strait sardine fishery operating in a fluctuating environment. Furthermore, there are two papers concerning the Impact of the increasing catchability coefficient and fishing grounds dynamics of large purse seine in Java Sea, the overview of fishing strategy of the Indonesia Tuna longlines in Indian Ocean. The papers concerning the information about compromise solution to the conflicting objectives in the management of Arafura Sea shrimp fishery, and coral reef rehabilitation in Saleh Bay, West Nusa Tenggara were also presented.

We hope that all the articles on this volume may contribute significantly to the development of fishery science and technology in Indonesia. We are grateful to the editorial board for their improvement and suggestion on reviews of the manuscripts.
