PREFACE

Indonesian Fisheries Research Journal (IFRJ) is the English edition of fisheries research journal published by the Agency for Marine Research. The journal means to expand communication network scientists in widely countries. This 2005 publication is financially supported by Agency for Marine and Fisheries Research.

The Indonesian Fisheries Research Journal Volume 11 present ten main articles related to fishing technology, biology reproduction and digestive, resources, aquaculture technology, and biotechnology.

We do thanks to the Editorial Board for evaluating the articles before accepted for publication. Their contribution will hopefully increase the journal quality. Finally, we hope the IFRJ would contribute importance information to achieve the fisheries and technology development in Indonesian.
