PREFACE

Starting from this volume, readers will find some changes in this journal, such as those mentioned in the Instruction for Authors. Also, readers will notice that all papers appearing in this journal are now reviewed by referees/experts/scholars from reputable institutions in the Southeast Asia region, Australia, and even Europe. These changes were taken to improve the quality of this journal to make it more acceptable to the scientific communities at both national and international levels.

Central Research Institute for Fisheries
Director,

Dr. M. Fatuchri Sukadi
