PREFACE

Indonesian Fisheries Research Journal (IFRJ) is the English edition of research journal published by Central Research Institute for Fisheries (CRIFI). Published once a year the Journal is meant as an effort to expand communication network between scientists of research institutes under CRIFI with their fellow fisheries scientists in other countries.

The IFRJ Volume III Number 1 presents six articles of several disciplines i.e. marine fisheries resources, aquaculture and fishing technique. Articles accepted in this Journal not only come from Indonesia but also from Thailand and Malaysia.

It is hoped that the IFRJ will also contribute to the progress of fisheries and technology in these countries.

We wish to express our sincere thanks to Dr. Nick Willoughby of National Resources Institute (NRI) United Kingdom for his valuable corrections, criticisms and suggestions of the manuscript of this Journal.

Central Research Institute for
Fisheries,

Dr. Moch. Fatuchri Sukadi
Director

CONTENTS

PREFACE	i
CONTENTS	iii
Catch Rate Fluctuations of Skipjack and Other Tuna Resources in the Northern Waters of Aceh By: <i>Badrudin and Sofri Bahar</i>	1
Survival and Growth of Milkfish (<i>Chanos chanos</i>) Larvae under Different Colour Values of Orange By: <i>Taufik Ahmad and Titiek Aslianti</i>	8
Effect of Different Levels of Phosphorus Input on Phytoplankton Productivity in Limed Acid Sulfate Soils Fishpond By: <i>Abdul Karim Gaffar</i>	16
Effects of Dietary Pyridoxine Levels on Growth and Vitamin B6 Profile of Juvenile Kuruma Prawn, <i>Penaeus japonicus</i> By: <i>I Nyoman Adiasmara Giri</i>	23
The Effect of Sublethal Concentration of Lead on Delta-aminolevulinic Acid Dehydratase Activity and Hematological Parameters in the Javanese Carp <i>Puntius gonionotus</i> (Bleeker) By: <i>Patimah Ismail and S. Alias</i>	37
Description of the Small Seiner Fleet in the Java Sea By: <i>Écoutin, J.M.; Atmadja Suherman Banon; Potier, M.; and Wijopriono</i> ...	47

SHORT COMMUNICATION

Some Aspects in Early Life Stages in Larval Green Catfish, <i>Mystus nemurus</i> (Cuv. & Val.) By: <i>Thumronk Amornsakun and Anuar bin Hasan</i>	64
