

## INDONESIAN FISHERIES RESEARCH JOURNAL

### Guidance for Authors

#### **Scope**

The journal publishes research results on resource, environment, fishing technology, aquaculture, post harvest, and socio-economics of marine, coastal, and freshwater fisheries.

#### **Language**

Manuscript must be written in English, while abstract should be written both in English and Indonesian.

#### **Manuscripts Preparation**

1. Article organization is as follows:

- ❖ Title is written in capital letters not more than 15 words, and reflects the main idea.
- ❖ Author name(s) are written in order with footnote at the bottom of the title page mentioning profession and institution of the authors.
- ❖ Abstract summarizes the study in not more than 250 words, describing background, objectives, materials and methods, results, and conclusions.
- ❖ Introduction covers backgrounds, problem formulation, earlier research results which need to be contradicted or developed, hypothesis, objectives, and approach used.
- ❖ Materials and Methods includes brief and detail descriptions of research time and place, materials used, data collection technique, experimental design applied, as well as data analysis method.
- ❖ Results and Discussion. Results contains data of facts being found, summarized in Tables or Figures. Discussion contains review of the results which places the study in the larger context of fisheries science and literature.
- ❖ Conclusions is presented in brief sentences and refers to title, objectives, and discussion of research result.
- ❖ References are written in alphabetical order by first author's family name, as follows:

- (book) Bose, A.N., S.N. Ghosh, C.T. Yang, and A. Mitra. 1991. Coastal aquaculture engineering. Oxford & IBH Publishing Co. Pvt. Ltd., New Delhi. 365pp.
- (proceedings) Lopulisa, C. 1993. Klasifikasi gambut di Indonesia me-nurut US Soil Taxonomy dalam upaya meningkatkan pemahaman tentang sifat dan potensinya. *Dalam* T. Sugeng, B. Setiadi, B. Nurachman, D. Mulyono, E. Nursahid, dan Kasiran (eds.), *Prosiding Seminar Nasional Gambut II*. Himpunan Gambut Indonesia dan Badan Pengkajian dan Penerapan Teknologi, Jakarta: 94-103.
- (book chapter) Sanders, E. and J.L. Fryer. 1988. Bacteria of fish. p.115-142. *In* B. Austin (ed.), *Methods in aquatic bacteriology*. John Wiley and Sons, Chichester, England.
- (journal article) Widjaya-Adhi, I.P.G. 1986. Pengelolaan lahan rawa pasang surut dan lebak. *Jurnal Litbang Pertanian* V(1): 1-9.

- ❖ Tables are presented with title above and legend below the tables.
  - ❖ Figures, schemes, flow charts, and photographs should be completed with title and legend.
2. Acronyms or unfamiliar abbreviations should be defined at first mention in the text.
  3. Latin name (italicized or underlined) and family of the species should be given besides its common name at first mention in the manuscript. Subsequent references may use the common name.
  4. Manuscript covering limited area of research or preliminary study, but fulfilling requirements as scientific articles will be published as short communication, with the author's permission.
  5. Editorial Board is eligible for refusing manuscripts beyond publishing requirements.

#### **Manuscript submission**

Two copies of manuscript typed in double-space using WS4 or WP51 program should be sent to "Tim Penilai Makalah (TPM)" at Research Institution/Station and the corrected manuscript to be sent to Editorial Board of Indonesian Fisheries Research Journal, Jl. K.S. Tubun Petamburan VI, PO Box 6650 Slipi, Jakarta 11410A. Telp. (021) 5709162.
